Philadelphia, March 17, 1914.

To the President of the University of Toronto.

In preparing a paper to be read at one of the sessions of the Thirty-second General Meeting of the Association of Collegiate Alumnae, meeting in Philadelphia, Easter week, April 13-17, 1914, a number of questions have arisen, which, if answered will aid greatly in the presentation of the subject.

I shall greatly appreciate any information which you shall forward concerning the following:

1. Are there any instances, which you are willing to cite (without names), in which positions have been given to women, who hold a certificate for post graduate collegiate work or who hold one of the post graduate degrees, in preference to women not so equipped?

2. What, in your opinion, is the future for the college woman who does not continue formal study in the Universities - as contrasted with that for the college woman who does pursue post graduate courses of study?

Thanking you for your courtesy, I am

Sincerely yours,

Dear Madam:

There is no information that I am able to give you in regard to the two questions that you ask me that would be of any service to you in preparing your paper for the meeting of the Association of Collegiate Alumnae.

Yours sincerely,

President.
